Relax at a stunningly beautiful mountain retreat.

We guide 2-5 discerning clients on the wildest back country trekking and hiking in New Zealand. We operate primarily in Mount Aspiring National Park out of Wanaka or Queenstown. We are professional mountain guides, not tour operators. Because we guide small groups, we can take you, not on the great walks, but the best walks ... where no-one else can go.

Visit our Aspiring Camp which is placed high over the Matukituki Valley. With stunning views of Mount Aspiring, this is the ideal place to explore or to just relax. Cool off in a mountain stream or scale a peak, the choice is yours. Not as demanding as our other treks.

Our Mount Aspiring Discovery trek offers 2-5 people two fantastic nights at our incomparable high-end Aspiring Camp Site. Situated high over the East Matukituki Valley this camp site has incredible views of Mount Aspiring, Popes Nose and Kitchener Cirque. It is your base to explore this magnificent sub-alpine and alpine wonderland. Day trips include the remote Albert Burn Saddle or the gorgeous Ruth Flat. You can hike, jump in a crystal clear stream or just relax. Trips begin and end in Wanaka.

We stay at pre-placed camp sites instead of crowded huts. This means you only carry a light pack. We rarely see other parties. All you need is appropriate clothing, a good pair of walking shoes or hiking boots (and a spirit of adventure). You will welcome the comfort of our fantastic home away from home. Our astonishing food is only outdone by the mountain scenery. Join a trek, or book out your private trek on or around the dates listed below.

The Mount Aspiring National Park is a majestic and seldom travelled area, literally off the beaten track. The surrounding peaks and huge tracts of unmodified native bush, give a feeling of timelessness. This is the basis of the area's reputation as having some of the most dramatic and undiscovered trekking in NZ. The park forms part of the Te Wahipounamu World heritage site. Many people do not realize that New Zealand does not have any large predators, no bears, no fox or wolf. There are no snakes in New Zealand. There are absolutely no animals which will harm you.

New Zealand is a truly unique country. Due to its geographic isolation many plants and animals have evolved which exist no where else on earth. The only way to appreciate this biodiversity and get a sense of how glaciation shaped the Southern Alps is to walk through the densely forested valleys, relax by the crystal clear rivers and endure the trek up to a high alpine pass.

Maori walked through what is now Mount Aspiring National Park in search of pounamu (greenstone). They discovered routes through the Southern Alps which would take them from the west coast into the interior. Towards the end of the 19th century the

European settlers came "exploring". They were looking for pastoral land, mineral deposits (mostly GOLD) and also routes through to the West coast. We now follow in the footsteps of Maori and the Pakeha surveyors as we trek through this stunning mountain wilderness.

itinerary

day three	A leisurely breakfast. We then head home with a final river crossing. The van is waiting for the 60 minute ride back to Wanaka. We usually arrive back in Wanaka around 4.30pm.

We want to maximise your chance of having a mountain experience that is successful and enjoyable. Our philosophy here at Aspiring Guides is such that we aim to cover all aspects of a trekking trip with you. This includes preparatory housekeeping matters too: let us know what you do/don't like eating, any allergies/medical conditions, and any special requests. We have a sound environmental policy (small groups, avoidance of machine prepared tracks, zero waste, operated and owned locally). We are professional mountain guides not tour operators. We take you, not on the great walks, but the best walks.

weather

New Zealand is famous for its changeable weather. The mountains here are characterized by long sunny fine periods mixed with sudden and sometimes heavy rain or snow. Our experienced guides are well equipped to provide the best possible trip and have many years experience in judging the conditions. Travel in bad weather is an art in itself, the temperate rain forest here is absolutely beautiful in the rain. By using Wild Walks you give yourself the best chance of a successful dealing with whatever the weather may throw at you. It is very rare for trips to be cancelled due to weather; in the unfortunate event that

this happens, there is a 50% cancellation fee. Once a trip begins there are no refunds. The trekking area of our website has detailed information on weather.

meals and snacks

Energy snacks and nutritious meals are an essential ingredient in helping you perform to your highest standard. We provide excellent meals and plenty of it. We cater for your specific dietary requirement.

insurance

Injuries are covered by the New Zealand Accident Compensation Corporation (ACC). ACC pays for the majority of costs incurred in evacuation and treatment of injured people. They do not cover you in case of illness. For more information concerning what ACC covers check out <http://www.acc.co.nz/claims/am-i-covered/index.htm>. We recommend that you have travel insurance that will cover you in being repatriated to your home country. Most standard travel insurance policies that cover lost deposit or cancellation fees will cover you in case you are somehow prevented from participating in the trip.

To register for a trip, you can book online through our excellent website. Your deposit of NZ\$500 may be paid by Visa or Mastercard, or bank transfer (NZ only). The forms required can be found on our website. Our booking terms and conditions are detailed on our online booking form on our website.
